

FIRE SAFETY TIPS

STAY FIRE SAFE!

- ✓ Make sure smoke and carbon monoxide detectors work. Test monthly.
- ✓ Create a family escape plan and make sure everyone knows where to meet following a fire.

- ✓ Keep candles away from combustibles and never leave candles unattended.

- ✓ Avoid smoking! Smoking only causes 3% of fires, but is the leading cause of fire deaths.

FACTS

Minnesota fire departments responded to more than **275,000** emergency calls in 2015.

Fire losses totaled over **\$224 million**.

SMOKE ALARMS

- ✓ Working smoke alarms cut risk of death in half.
- ✓ Install smoke alarms in every bedroom, outside each bedroom and on every level of the home, including the basement.
- ✓ Change batteries once per year.
- ✓ Replace smoke alarms every 10 years.

COOKING FIRE SAFETY TIPS

THE TOP THREE KNOWN FACTORS IN COOKING FIRES WERE:

21% unattended equipment

16% combustibles too close

12% equipment turned on accidentally or not turned off

COOK WITH CAUTION!

- ✓ Stay in the kitchen when cooking.
- ✓ If you leave the room – even for just a moment – turn off the stove and move the pan off the burner.
- ✓ Be sure to turn all equipment off when finished.

FACTS

\$133 million in residential fire losses with Minnesota

44% were due to cooking fires.
